**WELCOME TO KINGSTON**

Kingston, Belleville, Brockville, Picton, and Prince Edward County - we're in 'em all.

These Eastern Ontario gems are located close to, or on, Lake Ontario - right between Toronto and Montréal. This halfway location has historically made it a very strategic position, and our products can help your brand use some of the same tactics!

Queens University, a swelling arts centre, economic opportunities and picturesque landscapes consistently rank Kingston amongst cities like Vancouver as the top places to live in Canada. Advertising here is a great way to cast a wide and effective net using some of the best tools in the industry, tools that allow you to decide what eyes you want to catch, and what goals you want to achieve.
