

As Canada's leading full-service Out-of-Home (OOH) advertising company, OUTFRONT Media Canada has strong coverage in over 60 markets across Canada, including the 10 largest markets in Canada.

**We are looking for an enthusiastic, energetic and passionate team member to join our IT TEAM as an IT Project Manager. This position is based in Toronto.**

**In this role, YOU will:**

- Develop and manage all phases of projects, including but not limited to, analysis, plans, scopes, goals, resources, communications and budgets
- Assemble and manage project teams to ensure successful execution of projects
- Oversee and perform analysis for projects to establish needs, objectives, scopes and timelines
- Ensure all projects are delivered on time, within scope, and on budget
- Provide project updates, reporting and presentations to key stakeholders as-needed and on an established regular basis
- Determine the efficiency of current SOP's used by functional areas against capabilities of new platforms, and provide guidance to improve SOP's
- Help internal stakeholders make informed decisions about platforms, projects, and vendors
- Plan and collaborate with teams across the organization to align project objectives and establish interdependencies to develop plans that address the business needs holistically
- Proactively identify potential project roadblocks and risks and provide solutions to eliminate delays, and limit scope creep
- Prepare RFP's and manage selection process for required suppliers, services and vendors

**YOU possess:**

- Must have a minimum of 5 years experience working in IT Project Manager roles, managing complex projects
- University degree and/or related experience in Information Management is preferred
- PMP Certification
- Must have a strong technical background with the successful delivery of platform migrations and projects with complex integrations
- Comprehensive understanding of API integrations, software development, and complex IT environments
- Ability to develop and execute business needs analysis, gap analysis and project SOW's
- Hands-on technical experience working on an IT team is an asset
- Time management skills: the ability to multi-task and prioritize in a fast paced environment
- Excellent organizational skills with attention to accuracy, detail, and meeting deadlines
- A positive attitude, excellent interpersonal skills and a collaborative approach
- Driven by achieving collective goals
- Ability to see the big picture while managing day-to-day tasks to meet project milestones

**WE offer** an attractive total compensation package, if you fit the bill.
